(c) and (d) Approval has so far been given for setting up of 117 Special Economic Zones on the basis of proposals received from private/joint sector and from the State Governments of which 7 Zones have since become functional. Since the SEZs have been approved for establishment in the private/joint sector or by the State Governments, it may not be possible to estimate the number of SEZs likely to come up or the units which are likely to be set up in each of the Zones.

Employment opportunities in SEZs

†868. SHRI RAJ MOHINDER SINGH MAJITHA:
SHRI RAM JETHMALANI:
SHRIMATI KUM KUM RAI:

Will the Minister of COMMERCE AND INDUSTRY be pleased to state:

(a) whether it is a fact that capital investment to the tune of Rs. 1 lakh thousand crores has been assessed to be made through the industrial units established in Special Economic Zones in the next three years;

(b) whether it has inter alia assessed about the creation of around 5 lakh new employment opportunities in the next three years;

(c) if so, the details thereof;

(d) the basis on which the said assessment have been made by Government; and

(e) the details of said basis and the number of employment opportunities that will be created for specialists, trained and untrained labourers out of said 5 lakh job opportunities?

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY (SHRI JAIRAM RAMESH): (a) to (e) Investment of the order of Rs. 100,000 crores over the next 3 years in infrastructure development of special Economic Zones and in setting up of units therein, with an employment potential of over 5 lakh jobs has been estimated. This estimation is on the basis of the investment/employment potential projected by the promoters of the Special Economic Zones (SEZs) by them. No estimate has however been made of the break up of the said 5 lakh job opportunities into categories of specialists, trained, and untrained manpower.
